

Board elects chair; selects dates to meet

Commissioner Myra Peterson elected to serve as Board Chair

On January 4, 2005, the Washington County Board of Commissioners elected a new chairman and vice chairman.

Commissioner Myra Peterson, District 4, will preside as the Washington County Board Chairman for 2005, and Commissioner Bill Pulkrabek, District 2, will serve as the Vice Chairman.

"I'm honored to serve the citizens of Washington County and work with my fellow commissioners to help shape the future of our growing county," said Commissioner Peterson.

Washington County is governed by the Board of Commissioners. A new Board Chairman and Vice Chairman are elected at the first meeting of the calendar year. The Chairman is the presiding officer, and the Vice Chairman presides in the Chair's absence.

The County Board also set its dates for 2005. The Board will meet at 9 a.m. on the first four Tuesdays of each month, excluding any Tuesday that is a legal holiday. No meeting will be held on the fifth Tuesday of a month. The Board Chair is authorized to call an evening meeting or a meeting at other times, when necessary, to conduct business or to allow for better meeting access by citizens or interested parties.

Washington County Board of Commissioners

*From left to right, Commissioner **Myra Peterson**, District 4; Commissioner **Gary Kriesel**, District 3; Commissioner **Bill Pulkrabek**, District 2; Commissioner **Dennis C. Hegberg**, District 1; and Commissioner **Dick Stafford**, District 5.*

The County Board invites citizens to attend its meetings. An agenda is prepared prior to each weekly meeting and published on the county's web site at www.co.washington.mn.us.

Board meetings are held in the Board Room on the main floor of the Washington County Government Center, which is located at 14949 62nd Street North in Stillwater. All Board meetings are cablecast live on Channel 16 in the Stillwater area. Other county government cable networks provide countywide rebroadcasts as listed in local newspapers.

Official proceedings of the Board's meetings are published in the *Lillie Suburban* newspaper and a summary of the Board's actions appears on the county's web site.

For more information regarding the County Board meetings, contact the Washington County Office of Administration at (651) 430-6001.

Board welcomes Commissioner Gary Kriesel

On January 4, 2005, the Washington County Board of Commissioners welcomed a newly elected official, District 3 Commissioner Gary Kriesel.

If the last name sounds familiar, that's because Gary Kriesel was elected to the position formerly held by his older brother, Nile, who decided last year to retire from the Board at the end of his term in January 2005.

*"The county has a tradition of providing excellent core services to its citizens."
- Commissioner Gary Kriesel*

The newly elected Commissioner Kriesel is retired after 33 years of service at Northern States Power (now Xcel Energy) as a Senior Area Specialist. He also served most recently as a representative of Ward 4 on the Stillwater City Council.

Commissioner Kriesel believes the most important issues facing Washington County are budget, taxes, growth, and transportation.

"The county has a long tradition of providing excellent core services to its citizens and the lowest county tax rate in Minnesota because of excellent fiscal management and reasonable priority-

based outcomes," he remarked. "The challenge will be to maintain the level and quality of core services while also administering state and federal mandated programs without raising taxes."

Commissioner Kriesel's public service and civic involvement includes being a member of the Gateway Communities Team, the Stillwater Park and Recreation Committee, Stillwater Lions Club, Washington

County Community Services Advisory Committee, and the St. Croix Valley Area Community Family Center Integrated Planning Team.

He has also served on the Washington County Library Board and the Washington County Community Development Block Grant Advisory Committee. Commissioner Kriesel is a veteran of the US Navy and a past commander of American Legion Post 111.

"The impact of decisions made by the County Board today will be felt for years to come," he noted. "I believe my willingness to listen, combined with my strong, independent voice will serve the taxpayers of Washington County well."

New Washington County Commissioner Gary Kriesel – District 3 Commissioner Gary Kriesel, a resident of Stillwater, was officially sworn in on Tuesday, January 4, 2005. District 3 includes Baytown Township, May Township, Stillwater Township, West Lakeland Township, and the cities of Afton, Bayport, Oak Park Heights, Lakeland, Lakeland Shores, St. Croix Beach, St. Mary's Point, and Stillwater.

Washington County participates in the State Capitol Centennial

Board Chair Myra Peterson represented Washington County by attending a kick-off open house event to celebrate the 100th birthday of the Minnesota State Capitol.

The event was held on Sunday, January 2, 2005, as the official launch of the 2005 Capitol Centennial Celebration and featured a variety of activities.

Each of the state's 87 counties was represented with a large candle at a reception held in the Capitol's rotunda.

County receives award from the Minnesota Department of Transportation and Minnesota Asphalt Paving Association

Washington County was recently recognized for a paving project it completed last year on County State Aid Highway (CSAH) 7 in May Township.

The project was recognized by the Minnesota Department of Transportation and the Minnesota Asphalt Paving Association as one of the best bituminous paving projects completed in the state.

Each year, a panel of MnDOT bituminous experts reviews and evaluates projects submitted for paving awards. Pavement quality, final highway ride, and project cost effectiveness are some of the factors evaluated.

"The CSAH 7 project is 4.8 miles of road between CSAH 15 and County Road 59 in May Township. The existing asphalt was 'recycled' for this project, meaning it was ground up, mixed with a new oil, and placed back on the roadway.

Three-and-a-half inches of new bituminous were then placed on top of the recycled material," explained County Engineer Don Theisen. "The combination of new and recycled material was a cost-effective method of providing the additional strength that was required for the roadway."

"The combination of new and recycled material was a cost-effective method of providing the additional strength required for the roadway."

- County Engineer Don Theisen

The project also included the addition of turn lanes and bypass lanes at some intersections. Approximately 700 feet of roadway was also raised one foot to prevent flooding from an adjacent pond.

Washington County receives award – Carol Molnau, Lt. Governor, presents an Award of Merit to Washington County. **Front,** left to right, Doug Differt, MnDOT Deputy Commissioner; Molnau; County Engineer Don Theisen; and Mike Leuer, president of Tower Asphalt. **Back,** front to left, Sandy Cullen, the county's Transportation Manager; Cory Slagle and Tim Bloes, engineers in the county's Transportation Division; and Julie Skallman, State Aid Engineer. **Below,** the award-winning CSAH 7 in May Township.

County's credit rating is upgraded

Standard & Poor's upgraded Washington County's credit rating to "AA+" for general obligation bonds, effective December 2004. This represents an increase from the former "AA" rating.

The county's rating was re-evaluated as part of an annual review of the county's financial condition, dating from the bonds that were issued in October 2003.

"The county earned its new rating by demonstrating sound fiscal management," noted Commissioner Dennis C. Hegberg. "This means that the county will get a better interest rate for future bond issues."

Standard & Poor's is the world's foremost provider of independent credit ratings, indices, risk evaluation, investment research, data, and valuations.

Washington County to celebrate National County Government Week, April 10-16, 2005

During the week of April 10-16, Washington County officials will celebrate National County Government Week.

National County Government Week is an annual celebration of county government. First held in 1990, the goal of county government week is to raise public awareness and understanding about the roles and responsibilities of the nation's counties.

The theme for this year's event is "Honoring County Heroes." County employees provide a variety of services to citizens. "Whether it is policing streets, keeping families healthy, repairing bridges, plowing snow, helping troubled youth, training laid-off workers, or the countless other jobs county employees perform, these men and women deserve to be recognized for the work they do every day," said

Commissioner Dick Stafford. "Many residents don't know how county employees serve the community, so National County Government Week is the perfect time to highlight not only their service, but the programs offered by the county."

Washington County, along with more than 1,000 counties across the nation, will participate in National County Government Week by holding a variety of programs and events.

The Washington County Board of Commissioners will adopt a proclamation and visit several county facilities to personally thank county employees for their service to the community. The commissioners will also host a reception to recognize citizens who volunteer on county advisory committees.

Juvenile offenders benefit from attending the PLACE Program

The PLACE (People Learning A Cooperative Existence) Program is a community-based juvenile offender educational program that is used as an alternative to out-of-home placement. The program serves youth residing in Washington County who are under juvenile court supervision.

PLACE is designed for youth who are experiencing significant problems within the community, as well as learning and behavior problems at school. The average age of PLACE participants is 13-17 years old and the average length of stay in the program is six months, although some students may attend for an entire school year.

Most students continue to live at home or in foster care while attending the program, and they continue to work toward completing probation supervision requirements. These requirements may include community work service hours, restitution, victim mediation, individual or family counseling services, and skill-building educational classes.

“The program aims to develop interpersonal competencies and skills,” explained Kristin Tuenge, a supervisor in the county’s Community Corrections Department.

The PLACE Program offers:

- A supportive and strength-based approach to working with behaviorally challenged adolescents.
- Educational placement and regular academic programming.
- Individualized academic services based on student skills and abilities.
- Physical education programming through structured recreational activities and exercise.
- Psychological testing and assessment through a licensed psychologist.
- Risk and needs assessment utilizing research-based instruments and individualized probation-case planning.
- Cognitive-behavioral and life skills training through research-based group programming and individual interaction.
- Intensive probation supervision for appropriate court-referred clients.
- Parent support services including referral information, parent group and possible family-based counseling.

- Participation in community work service and restorative justice projects.

- Drug testing and follow-up referral information for chemical dependency services.

- Transitional support and consultation for students completing the program.

- A safe, drug- and tobacco-free environment that encourages learning and caring for others.

There are two PLACE Programs located in Washington County. PLACE South, established in 1984, is located in Cottage Grove. This program is a collaborative effort with

A successful intervention for juveniles – Respectful communication and behavior teaches PLACE participants how to be responsible, productive citizens with goals and direction.

their own behavior, and how to promote responsible behavior of others.”

During the 2002-2003 school year, the PLACE North facility served 19 juvenile males. Twelve of the 19 participants completed programming at PLACE North and were returned to mainstream or alternative school settings. Four students completed their high school education and earned a diploma. Six students continued to attend the program in the upcoming school year. One juvenile was unsuccessful in completing the program.

Of those students who completed the program, 92 percent had not re-offended one year later and all of them had avoided long-term out-of-home placement.

Many students show a marked improvement in attendance while at PLACE. “If a student does not show up, he or she quickly learns that PLACE staff and students will be out to pick them up in a van,” said Tuenge. As a result of an unexcused absence or failed completion of homework, the student – as well as the other students – may have a consequence(s) imposed.

Commissioner Myra Peterson added, “The PLACE Program is a successful community intervention, resolving problems at the levels they occur – at home, in school, and in the community. The PLACE program continues to prove that most juveniles will thrive with consistent positive attention and discipline.”

“The PLACE Program proves that juveniles will thrive with consistent positive attention and discipline.”
- Commissioner Myra Peterson

Washington County Community Corrections and South Washington County School District #833.

PLACE North, established in 1999, is located in Stillwater. This program was developed through the Children’s Mental Health Collaborative. Collaborative Partners include Human Services, Inc., School Districts 622, 624, 831, 832, and 834, and Washington County Community Corrections.

Staffing at both PLACE Programs includes a licensed teacher, a probation officer, and a living skills counselor. Several other local agencies provide additional support services and staff assistance.

The PLACE Program offers successful intervention for juveniles who have experienced problems at home, at school, and in the community. “The program meets students’ educational requirements and teaches problem-solving and thinking skills,” remarked Tuenge. “Students learn to be responsible, productive citizens with goals, direction, and real-life skills. They learn how to solve problems, how to accept responsibility for

Historic Courthouse is a premier location for many events

The Washington County Historic Courthouse is the oldest standing courthouse in Minnesota. Built in 1867, high atop the bluff overlooking downtown Stillwater, the courthouse was used for county business until 1975, when the county offices and jail moved to their new location, one mile south of the Historic Courthouse.

After extensive remodeling and restoration, the building was transformed into one of the finest examples of re-adaptive use in the Midwest. Currently, the courthouse features history exhibits, tours of the building and old jail, programs and community activities, fundraising events, and office rental space. In addition, the building is one of the area's premier rental sites for weddings and special events.

Upcoming events

During May, June, July, and August, *Jazz on the Courthouse Steps* is featured on the third Wednesday of each month.

In July, the Historic Courthouse hosts *Kickoff to Lumberjack Days*, a fun-filled family event featuring a petting zoo, live music, root beer floats, and penny candy. A local talent show highlights this annual event (see box at right). Both the Jazz series and the Talent Show are produced in conjunction with ArtReach Alliance.

The weekend before Thanksgiving is the *Victorian Christmas at the Historic Courthouse*, featuring a beautifully decorated building and grounds, costumed vendors and volunteers, live music, a Tea Room, and a crafts and art sale.

In February, staff conducts the *Stillwater Bridal Affair*, showcasing some of the area's premier special occasion vendors. A style show highlights the event. Proceeds from the Stillwater Bridal Affair and the Victorian Christmas at the Courthouse are directed to building restoration and repair.

Reserve space for your special event today!

The Historic Courthouse is one of the area's premier locations for wedding ceremonies, receptions, and other special events. Ceremonies and receptions are held in the old Courtroom, which features 21-foot ceilings, historic

Historic Courthouse hosts many events throughout the year – The Historic Courthouse in Stillwater (center) has been transformed into one of the finest examples of re-adaptive use in the Midwest. Staff works with clients to create memorable weddings and receptions (above left). Young ladies prepare to model the latest bridal fashions at the Stillwater Bridal Affair, an event that is hosted each year at the Historic Courthouse (above right).

stenciling details and lighting, a dance floor, and large windows with views of the city and the St. Croix River. A beautiful double staircase curves upward from the main floor, making a grand entry into the second floor courtroom. Outdoor ceremonies are also popular on the North Portico, overlooking the river and the courthouse grounds.

The building capacity for special events is 200 people. Rentals include tables and chairs for indoor use. There is no in-house caterer, so clients may choose any licensed caterer for their event. The courthouse alcohol policy allows beer, wine, and champagne only. Friday, Saturday, and Sunday are all-day rentals, which allows time for decorating, wedding rehearsals, and photos.

Many wedding planning resources are available to clients, including photos, magazines, books, and lists of area vendors and service providers. "Our knowledgeable and caring staff knows that a special event is much more than the rental site, and they are prepared to help clients blend their ideas, expectations, abilities, and financial resources into a joyous and memorable day," remarked Carolyn Phelps, Historic Courthouse Coordinator.

For more information, visit the Historic Courthouse web page at www.co.washington.mn.us/hc, call (651) 430-6233, or send an email to historiccourthouse@co.washington.mn.us.

Washington County presents the 2005 Highway

The Washington County Department of Transportation and Physical Development announces its 2005 Highway Program, which includes road construction and resurfacing projects, traffic signals, bridge replacement, and installation of a new railroad crossing signal and gate arms. The proposed program is subject to change due to funding availability and coordination with other agencies.

Construction Projects

In a continuing effort to provide the best service for Washington County residents, the following roadways will be reconstructed during the 2005 construction season. The projects are scheduled to address major problems on the county highway system, including safety, traffic capacity or congestion, or deteriorating pavement conditions. Every effort is made to promote traffic flow, but in the interest of safety, detours are set up when necessary. *Please drive safely in construction zones.*

Frenchman Road/Main Street (County State Aid Highway 8/14)

This joint project with Anoka County, Lino Lakes, and Hugo is located between I-35 and Trunk Highway 61. It will include construction of a four-lane divided roadway with a separated intermodal trail. The new roadway alignment will intersect TH 61 approximately 1,000 feet south of 145th Street. Construction is anticipated to begin in late summer/early fall of 2005. The road will be closed to through traffic.

75th Street North (County State Aid Highway 12) at Manning Ave. N. (County State Aid Highway 15)

Installation of a traffic signal on 75th Street North at Manning Ave. N. in Grant, Stillwater, and Stillwater Township will cause some lane closures and minor traffic delays.

Valley Creek Road (County State Aid Highway 16) at Bielenberg Drive

Modification of an existing traffic signal on Valley Creek Road at Bielenberg Drive in Woodbury will cause some lane closures and minor traffic delays.

Keats Avenue North (County State Aid Highway 19) at I-94

Installation of a traffic signal on Keats Avenue at the I-94 north ramp in Lake Elmo will cause some lane closures and minor traffic delays.

Woodbury Drive (County State Aid Highway 19) at Lake Road

Installation of a traffic signal on Woodbury Drive at Lake Drive in Woodbury will cause some lane closures and minor traffic delays.

Road Resurfacing Projects

Pavement recycling and overlays can extend the life of roadways showing signs of surface deterioration. These projects will have short-term lane closures. Advance warning signs and flaggers will direct traffic through the construction area.

170th Street North (County State Aid Highway 4)

Road resurfacing from TH 61 to Ingersoll Avenue in Hugo.

Inwood Avenue North (County State Aid Highway 13)

Road resurfacing from 10th Street North (CSAH 10) to ½ mile north of 15th Street in Lake Elmo.

Radio Drive (County State Aid Highway 13)

Road resurfacing from I-94 to Tamarack Road in Woodbury.

Bailey Road (County State Aid Highway 18)

Road resurfacing from Military Road (CSAH 20) to ¼ mile west of Tower Drive (CSAH 13) in Woodbury and Newport.

Woodbury Drive (County State Aid Highway 19)

Road resurfacing from Bailey Road (CSAH 18) to Hidden Lake Drive in Woodbury.

Lynch Road (County Road 58)

Road resurfacing from Keystone Avenue North (CR 57) to Manning Trail North (CSAH 15) in May Township. This project is a jurisdictional transfer and will be turned back to May Township.

Crack Sealing Projects

Pavement cracks will be filled on county roads in various locations. This work will be done during the summer months. These projects will have short-term lane closures. Advance warning signs and flaggers will direct traffic work areas.

Railroad Project

Improvements to the highway-railroad grade crossings will be done by the railroad company on the following roadway. The work will be done during the summer months. Road closures may be necessary, and advance notification signs will be posted prior to the closure.

122nd Street North (County State Aid Highway 7)

This existing signal is located on 122nd Street North east of Withrow in May Township. The railroad will be upgrading the crossing signals and adding gate arms.

Other Projects

St. Croix Trail North (County State Aid Highway 18)

The bridge over Valley Branch Creek north of downtown Afton will be replaced. This project is programmed for this year, but may be delayed until 2006.

Valley Creek Road (County State Aid Highway 16)

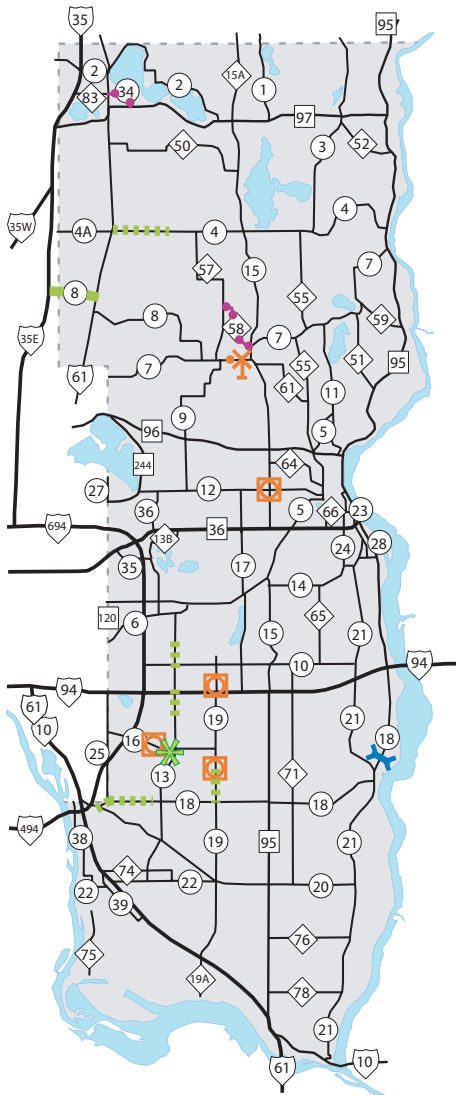

This median landscaping project in Woodbury is located from Bielenberg Drive to Woodbury City Hall.

11th Avenue SE, South Shore Drive, 15th Avenue SE, and 11th Street SE (County State Aid Highway 34)

These roads are jurisdictional transfers and will be turned back to the City of Forest Lake.

For more information, contact Gary Wisbar, Construction Coordinator, at (651) 430-4317 or e-mail wisbar@co.washington.mn.us. Current project information is available on the county's web site at www.co.washington.mn.us.

County's Adopt-a-Highway program recognizes volunteers with 10 years of service

A variety of community groups, churches, businesses, and families are involved in the county's Adopt-a-Highway program. Currently, 110 volunteer groups clean 244 miles of county roadsides.

"Washington County is grateful to volunteers that generously give their time to collect roadside litter," said Commissioner Bill Pulkrabek.

"These groups not only improve the appearance of our roadways, but they help the county save thousands of dollars on roadside cleanup."

Adopt-a-Highway groups agree to adopt a highway for a minimum of two years, select a segment of county road, and pick up litter at least two times per year, generally once in the spring and fall.

The county provides volunteers with high-visibility vests, trash bags, and safety information, removes the filled bags and large, heavy or hazardous items from the roadsides, and posts a sign to recognize the group's cleanup efforts.

Last year, maintenance workers collected 1,453 bags of garbage, 77 tires, 17 mattresses, 4 refrigerators, 3 chairs, and a few batteries – all of which amounted to a significant increase over the previous year.

There are approximately 20 miles of county roads available for adoption. "South Washington County (south of Trunk Highway 5) has four miles in the Afton/Denmark area, and North Washington County (north of Trunk Highway 5) has 16 miles available in Hugo, May Township, and the Forest Lake area," remarked Carol Hanson, the program's coordinator.

Waiting lists are also available for volunteers who want to adopt a section of roadway that is not currently available.

To volunteer for the county's Adopt-a-Highway program, contact the Department of Transportation and Physical Development at (651) 430-4300.

Washington County acknowledges and thanks all of its Adopt-a-Highway volunteers, including those who wish to remain anonymous. The following volunteers will complete 10 years of service during the 2005 season:

Michele Bachmann
CSAH 5 (2 miles)

Cimarron Community Coalition

Washington County seeks volunteers for Parks; Medical Reserve Corps

County Parks Seek Volunteers and Seasonal Employees

Washington County Parks is seeking volunteers to conduct visitor surveys this summer. Surveys are conducted randomly from Memorial Day through Labor Day for two-hour spans at Cottage Grove Ravine, St. Croix Bluffs Regional Park, Lake Elmo Park Reserve, and Square Lake Park.

Counts are also taken on the Hardwood Creek Trail at random sites from Hugo to the Chisago County line. For more information, contact Lori Meyers at (651) 430-8245.

Washington County Parks also accepts applications for summer seasonal positions. Check the web site at www.co.washington.mn.us for any available positions.

Applications may be obtained at the Washington County Government Center, Human Resources Department, 14949 62nd Street North, Stillwater, Minnesota 55082, or by calling the 24-hour application request line at (651) 430-6084.

Seasonal positions may include lifeguards, park attendants, maintenance assistants, night attendants, office clerks, concession attendants, or gate attendants.

Volunteers Needed for Medical Reserve Corps

Washington County needs health professionals (retired or active) to volunteer their skills in the event of a public health emergency. The Medical Reserve Corps is a nationwide initiative to mobilize and coordinate trained volunteers to assist their local community's response to medical disasters.

Following the events of 9/11, professionals with healthcare-related skills were among the first to respond, but without prior training and credentialing, many had to be turned away.

The goal of the Medical Reserve Corps is to develop a database of trained, pre-screened health professionals who are willing to support their local medical communities during a public health crisis.

A Medical Reserve Corps volunteer may be called during an epidemic or infectious disease outbreak requiring mass immunizations/dispensing or for education and prevention services to improve the health infrastructure of Washington

County. Volunteers donate their time and expertise locally, making it easier to help family, friends, and neighbors.

Who should join? Washington County residents who are:

- Healthcare professionals, such as physicians, nurses, pharmacists, dentists, EMTs, nursing assistants, respiratory therapists, psychiatrists, veterinarians, etc.
- Public health professionals, such as epidemiologists, health educators, biostatisticians, environmental health professionals, etc.
- Others with essential emergency response skills, such as social workers, counselors, interpreters, chaplains, support staff, etc.

How to join?

- Visit www.volunteercvs.org for a printable paper application.
- Complete an online application at the Minnesota Responds! Health Professional Volunteer Registry, www.health.state.mn.us/minnesotaresponds
- Contact Barbara Lundgren, Volunteer Coordinator for Washington County Medical Reserve Corps, at (651) 439-7434 or email barbara@volunteercvs.org
