# Geocaching @ your library

Geocaching (pronounced geo-cashing) is a high-tech treasure hunting game played throughout the world by adventure seekers equipped with GPS devices.

Learn about geocaching and how to get your family involved in this increasingly popular activity when local geocacher, Bill Nissen (also known as Grey Wolf), visits Hardwood Creek Library...

**Saturday, February 20  
11 am - 12 pm**

**Hardwood Creek Library  
19955 Forest Road N, Forest Lake  
Conference Room 1203/1204**

No GPS is needed, but you are welcome to bring your own hand-held GPS (non-automotive) unit along. We will also go outdoors and seek out geocaches close to the library, so dress accordingly if you wish to try your hand at finding a geocache or two. All ages welcome.

- Registration required.
- Sign up at the Library's Info Desk, or call 651-275-7300.
