

Reducing the Risk of SUID Post-Test

Name: _____ Date: _____

Instructions:

After viewing the approved videos regarding sudden unexpected infant death, please answer the following questions. Submit the completed post-test to your child foster care social worker.

1. In a typical year in Hennepin County, _____ infant deaths occur in an unsafe sleep environment.
2. True or False: The majority of infant deaths due to unsafe sleeping environments occur in the infant's crib.
3. In order to create a safe sleep environment for infants, the following guidelines should be followed (mark all that apply):
 - A. The child should be alone in the crib.
 - B. Crib bumpers should be used to prevent the infant from injuring themselves during sleep.
 - C. Make sure the infant is warm enough by covering them with a blanket.
 - D. The child should be placed in government approved crib.
 - E. The child should be placed face-up in their crib.
 - F. Place the child in the sleeping position in which they seem most comfortable.
4. True or False: Experts recommend that the infant should sleep in the same room as the caregivers, but not in the same bed.
5. The following types of sleep surfaces are safe for an infant (mark all that apply):
 - A. An adult mattress with the sheet pulled tightly across the mattress
 - B. A couch
 - C. A car seat
 - D. A firm sleep surface in a crib
6. True or False: An infant's mouth must be covered in order to suffocate on a soft sleep surface.

Reducing the Risk of SUID Post-Test

7. Dangers of sharing an adult bed include the following (mark all that apply):
- A. Rolling over on the child.
 - B. An adult inadvertently placing an arm or leg on the child, inhibiting the infant's breathing.
 - C. Babies becoming wedged in between the wall and the bed.
 - D. Soft sleeping surfaces that may cause suffocation.
 - E. All of the above.
8. True or False: As many as 80-90 percent of sudden unexpected infant deaths in the USA are the result of unsafe sleep practices.
9. Which of the following statements is NOT correct?
- A. Use tummy time for play.
 - B. It's alright to sleep a baby on their tummy if the parent approves of the sleeping position.
 - C. Positioning products, such as rolled blankets or wedge devices, should not be used.
 - D. A baby who usually sleeps on their back should never be placed on their tummy to sleep.
10. The following items are safe to have in an infant's crib (mark all that apply):
- A. Blankets
 - B. Pillows
 - C. Loose fitting sheets
 - D. Toys
 - E. Stuffed animals
 - F. None of the above
