## FACT SHEET: LICENSED WELL WATER CONTRACTORS

Drilling or sealing a water well requires more than just a large piece of equipment and some pipe. It takes knowledge of local geological conditions and many years of experience.

State law (Minnesota Statute 1031.115) requires that persons who construct, repair, or seal water wells must be licensed by the Minnesota Department of Health (MDH). Before receiving a license, the well contractor must have at least three (3) years of drilling experience and must pass a comprehensive examination covering the state requirements for well construction.

On the reverse side is a list of licensed well contractors who have indicated to the Washington County Public Health and Environment Department that they perform well construction or sealing in the County. Contractors are listed in alphabetical order by company name. Listing or omission does not imply endorsement or disapproval of the contractor.

**THE WASHINGTON COUNTY PUBLIC HEALTH AND ENVIRONMENT DEPARTMENT CANNOT RECOMMEND OR ENDORSE ANY WELL CONTRACTORS.**

Licensed well contractor information is also available on their MDH's website at:  
<http://www.health.state.mn.us/divs/eh/wells/lwc/index.html>

For more information about well drilling, please call the Washington County Public Health and Environment Department at 651-430-6655.
