

HOW IS IT
RECYCLED?

GLASS

Washington
County

1 Your recyclables are picked up curbside

2 Recyclables are brought to a recycling center and sorted

3 The glass containers are crushed into small pieces known as cullet

4 The cullet is heated and melted and the molten glass is formed into individual pieces called gobs

5 Glowing bottles emerge after the gobs have been molded to create a bottle

6 After the new bottles are cooled, they are packaged and sent to bottling companies where they are filled
