Washington County lead a preliminary design study to identify roadway improvements, including improvements to the pavement, safety, and drainage. The preliminary design was completed in the spring of 2019.

Good news! Funding has been allocated to move this project forward, and the county will now transition into the Final Design and Right-of-Way Acquisition phases. Construction is expected to begin in the spring of 2023.

Join us at the open house to:

- View the design layout
- View an updated project schedule
- Learn more about the right-of-way acquisition process
- Speak with staff and ask questions
