

Department of Public Health and Environment

David Brummel
Director

Jill Timm
Deputy Director

I hereby give permission to collect a private well water sample for analysis for Volatile Organic Compounds (VOCs) under the terms described in the letter I received from my Township (if applicable). I understand that the cost of one sample collection and analysis is \$175 (\$220 if I also want my water tested for coliform bacteria and nitrate-nitrogen). Additional VOC samples may be requested and I understand that these cost an additional \$175 for each.

Name (please print clearly)

Do you have a Granular Activated Carbon (GAC) filter in your home? Yes No (circle one)

If you have a GAC filter, do you want a sample collected before the filter (to test the water quality in your well), between the filters (to check for early breakthrough of contamination), or after the filters (to test the water inside your home)?

Before Between After
(circle one or more, note that each sample will cost \$175)

Please check if you want to also test for coliform bacteria and nitrate-nitrogen (for an additional \$45.)

Please note the following information if possible:

Location of unfiltered, unsoftened outside tap:

Physical location of well:

Unique Well Number\*:

\* The unique well number is a six digit number that may be found on a metal tag attached around the well casing. Not all wells will have this tag.

Dog(s) outside? Yes No

Was well recently chlorinated or disinfected? Yes No

Hose available outside? Yes No

Please return this form with your check to:
