

# County Highway 14 (47th Street) and County Highway 24 (Osgood Avenue)

June 2023 Project Update

## When is this project expected to occur?

This project has already begun with private utility relocations (phone, internet, gas, electric, etc.). Roadway work is expected to begin on June 12. Roadway work will continue into the fall, will be suspended over the winter (limited work to occur over winter), and is expected to be complete in the spring of 2024.

## What hours will workers be in the area? Will they work on weekends?

Allowable working hours for this project are Monday through Saturday from 7 a.m. to 7 p.m.

## Will the roadway be closed during construction?

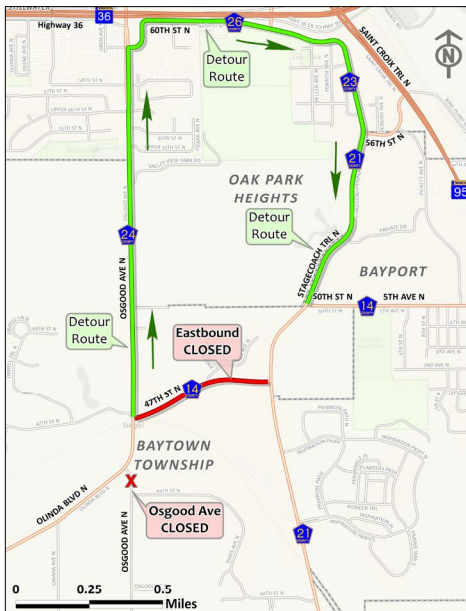

During construction, there will be some one-way configuration and road closures. See the staging and detour exhibits for more information.

## What is being done to account for cut-through traffic using Township Streets during closures of the County Highways?

During the entire duration of construction of the County Highway 14 and 24 project, segments of the county roads will be closed. During these closures, without any further action, we would expect to see a significant increase in traffic volumes, speeds, and truck traffic on Township Streets (44th Street/Paris Avenue/40th Street), with those streets becoming a de facto detour route.

To mitigate concerns regarding anticipated increases in traffic volumes, speeds, and truck traffic using Township Streets during construction, the direct connection to County Highway 14 (Olinda Blvd.) from Osgood Avenue will be temporary closed as part of the project. During this closure, access to and from the neighborhood will be maintained from County Highway 21 (Stagecoach Trail).

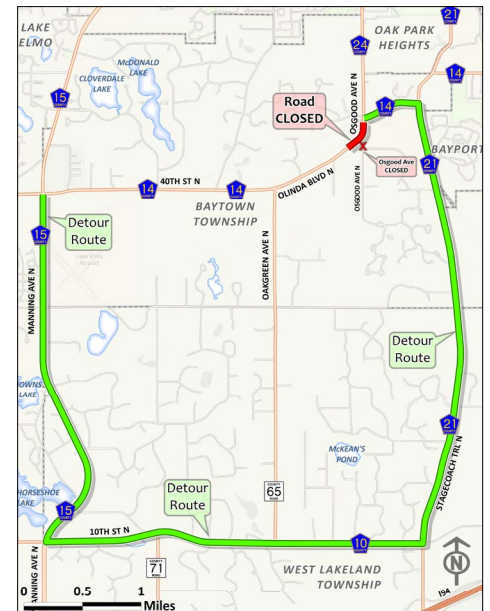

## CONSTRUCTION STAGING AND DETOURS

**STAGE 1 - Eastbound 47th Street Closed**

**STAGE 2 - Osgood Avenue Closed between 47th Street and 1/4 mile South of 50th Street**

**STAGE 3 - Osgood Avenue Closed at Railroad Crossing**
