

County Road 57 (Keller Ave N/Keystone Ave N) Resurfacing Project

Road Closure & Detour Details

County Road 57 Roadway Resurfacing Work

County Road 57, from County Highway 7 (122nd St N) to approximately 0.7 miles north of Lynch Rd N, as shown below, will be open to traffic for the majority of construction; however, traffic may be restricted to one-way travel at times. During these restrictions, flaggers will be used to stop traffic in one-direction while the other direction of traffic clears the work zone. Be advised of construction and truck traffic, and expect congestion and traffic delays.

Driveway Culvert Replacements

An existing conditions analysis was performed on the driveway culverts along County Road 57 within the project limits and various driveway culverts were determined to be in need of replacement. During driveway culvert replacement work, vehicle access to driveways will be impacted. The contractor will notify the property owner a minimum of 2-days prior to closing vehicle access.

County Road 57 Roadway Culvert Replacements

Several roadway culvert replacements will require a **full closure of County Road 57** within the project limits. This work will be limited to a two-week timeframe and will utilize a “rolling closure”, meaning that the road closure location will move as the contractor progresses work. The same detour route will be utilized to avoid the closure location, which is shown on the backside of this handout.

Washington County’s communications team will be working closely with the on-site construction team to ensure the road closure location is shared in a timely manner to limit delays to County Road 57 users. There will be multiple ways to stay up to date with this information, including:

On-site Signage

Dynamic changeable message signs will share live project updates throughout construction.

Website Updates

A comprehensive list of construction updates will be found on the “**Construction Updates**” tab of the project website.

Tip: Bookmark the County project website link to refer back to during construction: <https://www.co.washington.mn.us/County57>

Social Media Updates

Washington County social media accounts will be updated as soon as updates become available.

Tip: Follow Washington County on Facebook using this QR code:

Email Updates

Email updates will be shared throughout construction.

Tip: Select “Notify Me” on the project website homepage, linked above, to get signed up for the project’s mailing list.
