

# Free Product Room Project Contest

Have you completed a project using items from the Environmental Center Free Product Room?

Mark found that tung oil, a product commonly found in the free product room, provided a beautiful finish to the reclaimed western red cedar he used to create a variety of handmade products.

Maybe you upcycled an old piece of furniture, refinished your hardwood floors, or painted the perfect room. Whatever the project is, we want to hear about it!

**Submit a photo for a chance to win a prize pack with DIY items!**

**Enter by Friday, December 15!**

Submit a photo and description to  
**[environmentalcenter@co.washington.mn.us](mailto:environmentalcenter@co.washington.mn.us)**

*Winner will be notified by email by January 15. By submitting a photo, you give Washington County permission to use the photo for promotional materials.*
